### Changes on Derivatives and Spot Data on EPEX SPOT FTP

Dear EPEX SPOT data user,

We would like to inform you that due to a reorganization of our servers there will be some changes in our data files i.e.:

Among the 88 existing files:

- 13 files will be renamed and their structure changed (new fields)
- 7 files will keep the same name but their structure will change (new fields)
- 1 file will not be published any longer

And there will be 17 new files will be available.

You will access these files as of September 2015 while keeping in parallel an access to the existing ones until 31 October 2015.

After 31 October 2015, the existing version of files impacted by the changes (names in italics in the tables below) will not be accessible on the ftp server and the website any longer.
