Additional AT-SI Border on MCC files

Dear Madam, Dear Sir,

As of 12th of July a new Market Coupling Contract (MCC): **APG-ELES** will be displayed on the website and added on the MCC files. This corresponds to the cross border line between Austria (AT) and Slovenia (SI).

MCC Definition

Market Coupling Contracts (i.e. energy flows between EPEX areas and neighboring areas) are published on EPEX website on a daily basis after the validation of the day-ahead results within the multi-regional coupling process.

Current flows are:

- RTE => ELIA (FR => BE)
- RTE => Amprion (FR => DE)
- Amprion => RTE (DE => FR)
- RTE => Transnet (FR => DE)
- Transnet => RTE (DE => FR)
- Amprion => TenneT BV (DE => NL)
- TenneT GmbH => TenneT BV (DE => NL)
- RTE - REE (FR => ES)
- RTE - NGIL (FR=> GB)
- TenneT DE - Energinet.dk (DE => DK1)
- Energinet.dk - TenneT DE (DK1=> DE)
- RTE - Terna (FR => IT)
- APG - Terna (AT => IT)

Additional Border

The Austrian - Slovenian border is linked to the following TSOs:

- APG (Austria)
- ELES (Slovenia)

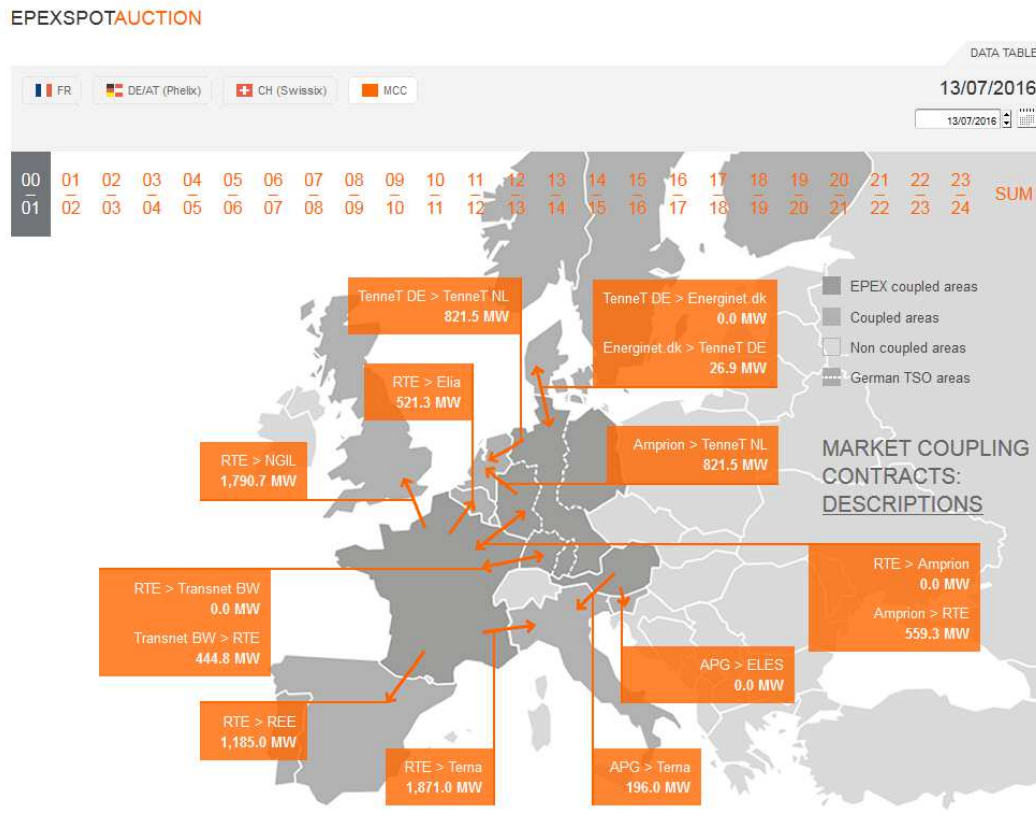

The new MCC related to this border will correspond to only one direction:

- APG => ELES (From Austria to Slovenia)

Map update on the website

The MCC map website has been amended in order to integrate a new arrow between Austria and Slovenia and its associated “data box”.

<http://www.epexspot.com/en/market-data/dayaheadauction/mcc/mcc-table/mcc-table/2016-07-13>

MCC files

The current MCC file (MCCMarketResult_YYYY.xlsx) has been updated with a new tab APG-ELES in order to include additional border:

- APG => ELES (Austria to Slovenia)

A new MCC file, csv format, will be created and daily generated (as it is done for the current MCC):

- MCCMarketResult_apg-eles_YYYY.csv

Location on the EPEX SPOT FTP is: **/spot_market/auction/mcc**

Location on website is: <http://www.epexspot.com/en/market-data/access-to-subscribed-data>
