January 2017

30-minute continuous products

Dear Madam, Dear Sir,

As of end of Q1 2017, 30-minute products will be launched on French, German/Austrian and Swiss intraday continuous markets. They will be reported in the current existing website display and FTP files in the following manner:

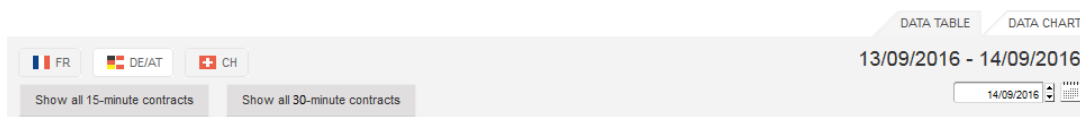

Website display

- No change on front page
- Update of detailed page as follows:

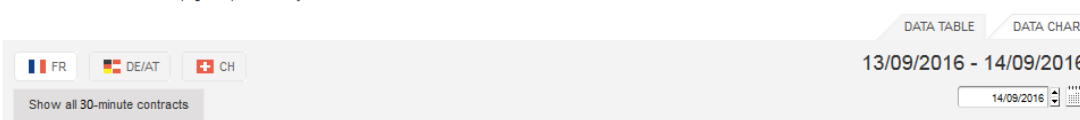

A new button will be added on the top of the intraday table. This button will have 2 status (same logic as the 15-minute contracts):

- “Show all 30-minutes contracts”
 - All 30 minutes instruments are displayed
- “Hide all 30-minutes contracts”
 - All 30 minutes instruments are hidden

For DE/AT and CH

For FR

The 30-minutes contracts will be inserted below the hours which they are part of.

When the Intraday market (DE/AT and CH) contains 15-minute contracts, these latter will be inserted below the half hours which they are part of.

The arrow functionality set up for the displaying and hiding of the 15-minute contracts will be applied to the 30-minute contracts.

The instruments will be organized on the detail page as follow:

- For DE/AT and CH
 - 1st hour
 - 1st 30 minutes
 - 1st 15 minutes
 - 2nd 15 minutes
 - 2nd 30 minutes
 - 3rd 15 minutes
 - 4th 15 minutes

FTP files

The new 30 minutes instruments will be integrated into the current files for DE/AT, FR and CH.

- intraday_transactions_[country]_[year].csv
- intraday_transactions_[country]_[year-month].xlsx
- intraday_transactions_[country]_[year-month].csv
- intraday_results_hours_[country]_[year].csv
- intraday_results_[country]_[year].xlsx

[country]= germany_austria; france and switzerland

All lines related to the new 30 minutes instruments will contains the same data as the other instruments (hours and 15 minutes)

EPEXSPOT will provide these data through the usual technical chain and process.

NB: the files related to blocks won't include the new 30 minute instruments (*intraday_results_blocks_[country]_[year].csv*)

We remain at disposal for any further question you may have.

Best Regards,

Market Data Team
