Please note that the access to the SFTP server is charged except for EPEX SPOT members active on these markets.

Please contact Mathilde at marketdata@epexspot.com for further information if you wish to access the SFTP server.

SFTP installation :

A test server is available to perform a connection test to ensure that the connection to the new SFTP works for you. The test environment also enables you to test your processing chain in case you wish to implement automated processes linked to our server.

Test Server:

SFTP Test Server		
IP	185.115.189.38	Accept the SSH key when applicable.
Port	2222	
Username	epetest	Directory settings: default
Password	On1yf4rTest2016	SFTP protocol: version 6

Please be informed that the production server folder structure will be identical to the current folder structure.

We remain at your disposal for any further questions or remarks you may have.
